## Asthma Control Test™ for teens 12 years and older. Know the score.

## If your teen is 12 years or older have him take the test now and discuss the results with your doctor

Step 1 Write the number of each answer in the score box provided.

Step 2 Add up each score box for the total.

Step 3 Take the test to the doctor to talk about your child's total score.

All of the time	1	Most of the time	2 Some of the time	3 A little of the time	None of the time	5	
<b>2</b> . During the p	ast <b>4 week</b>	s, how often	have you had shortness	s of breath?			
More than once a day	1	Once a day	2 3 to 6 times a week	3 Once or twice a week	4 Not at all	5	
			did your <b>asthma</b> sympt lier than usual in the m	oms (wheezing, coughing, orning?	shortness of breath,	chest tightness,	
4 or more nights a week	1	2 or 3 nights a week	2 Once a week	3 Once or twice	4 Not at all	5	
4. During the p	ast <b>4 week</b>	s, how often	have you used your reso	cue inhaler or nebulizer me	edication (such as al	buterol)?	
						buterol)?	
3 or more times per day	1	1 or 2 times per day	2 or 3 times	Once a week or less	Not	buterol)?	
3 or more times per day	1 ou rate you	1 or 2 times per day	2 or 3 times per week	Once a week or less	Not	5	

## What does it mean if my child scores 19 or less?

- If your child's score is 19 or less, it may be a sign that your child's asthma is not under control.
- Make an appointment to discuss your child's asthma score with their doctor. Ask if you should change your child's asthma treatment plan.
- Ask your child's doctor about daily long-term medications that can help control airway inflammation and constriction, the two main causes of asthma symptoms. Many children may need to treat both of these on a daily basis for the best asthma control.
